

	<h2>Invitation to a KAPPA presentation</h2> <p>23rd March 2012 – Buenos Aires, Argentina</p>	
---	---	---

We would like to invite you to a presentation and lunch.

This session will be presented by Olivier Houzé, Managing Director of KAPPA and is entitled:
Update on KAPPA technical developments and products

Although we will talk about KAPPA and its products this is not the emphasis. We will deal with the reasons why these new developments have been necessary and how we arrived at them. We will look at the new operational tools and methods these conditions require. *The emphasis will be on the Ecrin and Diamant Master workflows. A short presentation on Emeraude v2.60 will be made, but we do not think it would be worth it if you come for Emeraude only.*

If you are interested in attending please mail to events@kappaeng.com and we will come back to you with more information and your invitation. We look forward to seeing you.

Presentation content

- Quick update on KAPPA
- Dynamic Data in Intelligent Fields
- What we have now:
 - Ecrin v4.20
 - Diamant Master v4.12
 - Emeraude v2.60
- Scheduled in 2012:
 - Ecrin v4.30
 - KAPPA Server v5.0, replacement of Diamant Master
 - KAPPA VIZ v5.0, a new 3D collaboration tool
- Beyond 2012:
 - KAPPA Workstation, replacement of Ecrin
 - Our work on Intelligent Fields
 - KAPPA consortium on unconventional resources

Speaker: Olivier Houzé
