

KAPPA presentation

Kuala Lumpur, Shangri-La Hotel, 24th July 2023

Meet the KAPPA CEO to hear what is new in KAPPA-Workstation, our integrated Dynamic Data Analysis suite. He will introduce Carbone and Grenat, our latest PVT and Nodal Analysis modules, and show the first commercial version of KAPPA-Automate, our new web / cloud-based automation platform.

We will then look to the future including KA4U, a client led consortium on automation for unconventional analysis workflows, our work on the next generation of KAPPA-Workstation, future development of automation and our move towards New Energy.

To book a place, please contact events@kappaeng.com.

Speaker: Olivier Houzé – KAPPA Managing Director

Olivier Houzé holds an engineering degree from Ecole Polytechnique (1982) and an MSc in Petroleum Engineering from Stanford University (1983). After 4 years as a well test field engineer with Flopetrol (now slb), he co-founded KAPPA in 1987. He wrote the first versions of the Saphir PTA software and has served as KAPPA Managing Director since 1991.

Olivier has been involved in many SPE summits, forums and workshops. He co-authored the 2009 SPE Pressure Transient Testing Monograph and the 2016 SPEE Reserve Monograph 4. He was a SPE Distinguished Lecturer in 2013 and served on the SPE Board as its Technical Director for Reservoir in 2012-2015. He was the recipient of the 2019 SPE Lester C. Uren Award and of a SPE Honorary Award in 2022.

KAPPA presentation schedule
