KAPPA software presentations in Lagos, Port Harcourt, Accra & Luanda

KAPPA-Workstation, the 5th Generation of KAPPA software, was deployed in 2016 (v5.10), with a third major update (v5.20) in 2018. KAPPA-Workstation now integrates Saphir NL (Pressure Transient Analysis), Topaze NL (Rate Transient Analysis), Rubis (multipurpose, unstructured numerical model), Azurite (Formation Test Analysis), Emeraude (Production Log interpretation) and Citrine (Field Performance Analysis). KAPPA-Server v5.20 was released in 2018. A new Unconventional Resources (UR) add-on, the result of the KAPPA Unconventional Resources Consortium (KURC), has been released recently.

After a short update on KAPPA and Generation 5, this presentation will present recent KAPPA developments, both in progress and planned for the longer term including the sixth, cloud-based generation and the development of automation solutions.

To book a place, please contact events@kappaeng.com advising your preferred location.

Speaker: Olivier Houzé

Olivier Houzé holds an engineering degree from Ecole Polytechnique (1982) and an MSc in Petroleum Engineering from Stanford University (1983). He co-founded KAPPA in 1987 with Dominique Bourdet after four years with Flopetrol-Johnston (Schlumberger), mainly as a well test field engineer in the Middle East. Olivier wrote the first versions of Saphir and has served as KAPPA Managing Director since 1991.

Olivier has been involved in numerous SPE forums and workshops on well test interpretation and related topics. He was a co-author of the 2009 SPE Monograph 23 on Pressure Transient Testing and the 2016 SPEE Monograph 4 on Unconventional Reserves. He was a SPE Distinguished Lecturer in 2013 and served on the SPE Board as the Technical Director for Reservoir in 2012-2015.

Presentation schedule

- Lagos, Nigeria: Monday 11th March
- Port Harcourt, Nigeria: Wednesday 13th March
- Luanda, Angola: Friday 15th March
- Accra, Ghana: Monday 18th March

Due to the full agenda, and as a courtesy to all participants, we ask attendees to arrive promptly for the start of the event.

08:45 - 09:00 Welcome coffee

09:00 - 10:15 What's New

- Update on KAPPA
- KAPPA-Workstation & G5
- Saphir NL, Topaze NL & Rubis

10:15 - 10:30 Coffee break

10:30 - 11:45 What's New

- KAPPA Unconventional Resources Consortium (KURC) & UR Add-On
- Emeraude, Citrine & Azurite
- KAPPA-Server

11:45 - 12:00 Coffee break

12:00 - 13:15 What's Next

- Future KAPPA-Workstation developments
- KAPPA Automation Consortium (KAC) & KAPPA-Automate
- Amethyste, Carbone & Puma
- Development plans

13:15 Lunch (provided by KAPPA)
